Left Handed Drill Bit
Extracting Bit

SHIPPING WEIGHT: 0.09 Kg

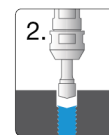

FEATURES

- Morrisflex Bolt Removal Kits are designed to efficiently extract bolts or studs without damaging threads and promote a safe and clean removal every time.
- The kit is designed to be used with straight or angle die grinders. This makes it ideal for confined space and eliminates the need for the part to be removed and setup on a machine.

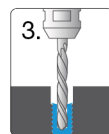

The 4 step process involves:

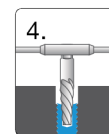

1. Flatten top of broken bolt or stud

2. Form countersink on top of bolt or stud

3. Drill a hole with left handed drill bit.

4. Tap extraction tool into the hole and remove.
