

100mm Industrial Edge Profiler

Part Number: SI-4011L

© Copyright M Gamer Pty. Ltd. 2020

SPECIFICATIONS

Length: 250 mm
Height: 113mm
Free Speed: 10,000 RPM
Min. Corner Radius: 17 mm
Min. operating depth: 10 mm
Weight: 2.20 Kg
Noise Level: 87.8 DBA (101.4 Pwr)
Vibration A: 2.19 m/s² K: 0.96 Pwr
Av Air Cons.: 33.9 CFM
Output: 900 Watts

FEATURES

- Carbide tipped router ideal for machining beveled (C3) or radiused (R3) edges to metal
- 32 mm guide roller for easy and precise operation
- Replaceable 150 mm Base Plate
- Side handle exhaust
- Suited to welding preparation or general edge finishing
- Each of the three carbide tips feature 8 cutting edges offering long service life
- Quickly and easily machines consistent chamfered or radiused edges that meet and exceed the IMO's PSPC regulations for surface preparation.

SHIPPING WEIGHT: 3.50 Kg
