FEATURES

- These units, clean, dry and filter incoming air from 99.9% of oil and water vapour and are essential for any quality spray-painting operations.
- The Coalescing Filter removes oil vapours which can get past standard filters & water separators and features a service indicator when the filter element needs to be emptied.
- The dryer section utilises desiccant beads that change colour from blue to pink when reactivation or replacement is required. Each unit includes two bags of desiccant, which are also sold separately.

SHIPPING WEIGHT: 2.00 Kg
