

Air Tapping Unit M3-M12

Part Number: VAT1612

SPECIFICATIONS

Includes:

Air Tapping Driver

Parallel arm

Table mounting column

Filter, Regulator, Lubricator

Tapping adapters: M3, M4, M5, M6, M8, M10 & M12

FEATURES

- Parallel arm maintains 90 degree angle between tap and working surface, resulting in significantly increased productivity, thread accuracy and reduced likelihood of tap damage
- Easy to operate, no experience or strength required with minimal setup time compare to CNC and drilling machines
- Rapidly change between sizes with quick-release tapping collets
- Arm reach of 1.4m provides large work area
- Arms feature adjustable gas struts to fine-tune movement
- Variable speed motor with throttle & reverse button
- 5hp compressor recommended

SHIPPING WEIGHT: 18.00 Kg
